Objective

Aspiring full-stack developer with a growing expertise in Python programming. Passionate about building scalable and efficient applications. Currently enhancing skills in web development and backend programming. Seeking opportunities to apply and expand my knowledge in a professional environment.

Technical Skills

- **Programming Languages:** HTML, CSS, JavaScript, Python
- **Frameworks and Tools:** React, Node.js, Flask, Bootstrap
- **Database Management:** MySQL, MongoDB
- **Other Skills:** Git,GitHub, RESTful APIs, Responsive Design

Projects

Restaurant Table Reservation(HTML)

A web-based platform for reserving tables online.

- Designed front-end with HTML and JavaScript.
- Implemented back-end with MySQL database.

Snake Game (Python)

A classic snake game built with Python.

- Developed using Pygame library.
- Added scoring and difficulty level features.

Login System with Database (Python)

A secure login system using Python and database integration.

- Built user authentication system with SQLite.
- Implemented error handling and validation checks.

Education

- **B.Tech. Computer Science and Engineering (2026):** Manakula Vinayagar Institute of Technology, Puducherry
- Lakshmi Chordia Memorial Matriculation Higher Secondary School Cuddalore (HSC - 85 %) (SSLC - 90 %)

Achievements

- I have completed a certified course on full stack development.
- Contributed to open-source projects on GitHub.
- Conducted a workshop on "Getting Started with Python."
